

Dovedale: Autumn 2

English

This term we will consider what they are going to write before beginning by writing down ideas and/or key words, including new vocabulary.

Make simple additions, revisions and corrections to their own writing. Learn how to use both familiar and new punctuation correctly.

Maths

We will focus on addition and subtraction. In order to solve addition and subtraction problems we will use pictorial representation and concrete materials. There will be a huge focus on knowing our bonds to 10 and 20. We will continue to learn our times tables.

Topic

This half term we will be investigating the past and looking at the Mesozoic Era! The children will be researching significant events that lead to the changes in the dinosaurs and their extinction. We will be designing our own dinosaurs and making a powerpoint to share all our learning this half-term. In Science we will describe how animals obtain their food from plants and other animals.

Foundation: In Geography we will be learning about Pangea and how the continents have changed from the prehistoric planet to our planet now. PE will be on Wednesday and Thursday.

Homework:

Please make sure your child reads at home every-day and learns his/her times tables and spellings each day.

WALKING WITH DINOSAURS – THURSDAY 19TH DECEMBER AT 2.45pm
