

**WHITECOTES PRIMARY SCHOOL SPORTS FUNDING SUMMARY**

**ACADEMIC YEAR 2013 / 2014**

This year we have been allocated £9,180. This funding has been directed towards promoting, developing and sustaining sport across all year groups. We are accomplishing these aims through a variety of strategies and support including:

<b><u>Intervention</u></b>	<b><u>Pupils Involved</u></b>	<b><u>Impact/Evidence</u></b>
P.E Specialist support Liz Richards £3,000 – 6 free sessions	Autumn term Year 2 & Year 6 Spring Term EYFS and Year ½	Children have learnt new skills from an expert in the field of P.E. Teachers have enhanced their skills through observations and working alongside the specialist. This improves subject knowledge and provides an array of teaching strategies to use in the future. Improved skills are evident in the progress tracker and levelling at the end of each key stage.
P.E Specialist Coach Simon Thorpe £450	Spring Term 2 Year 3 & Year 4	From the PE health check report <b>60%</b> staff indicated that they had inadequate skills to teach athletics. After training from specialist coaches we have seen a growth in skills with <b>29%</b> requiring further training in athletics.
Tennis Coach  Cricket Coach/after school club £1,200	Spring Term 1 Year 3 & Year 4  Spring Term Year 1 & 2 Summer Term 5 & 6	From the PE health check report carried out by the CSSP it was clear that teaching staff required further development throughout all areas of PE with only <b>14%</b> of staff having confidence to deliver PE skills competently. Tennis and cricket were priority sports for children to develop coordination skills and for staff to increase their expertise in this area with <b>29%</b> of staff demonstrating inadequacy. Now only <b>15%</b> of staff requires further training.
Martin Mansell Paralympian visit Day £180	Whole School assembly Class session x 8	Both children and staff have learnt a new sport with Boccia coaching. The children have been motivated by Martin to raise their success in sport and beyond. Children have experienced a Paralympic sport, which is inclusive and meets the needs of children in our school who have a physical disability. Boccia has been incorporated into the 2014-15 PE curriculum map.
SJN Nutrition Project £300	Summer Term Year 3,4 & 5	Children have learnt about nutritional values and how to keep their body healthy. This has raised the standards of nutrition in school and at home. The impact on children in class is sustained concentration levels with a healthy snack for break.
560 Programme	Autumn Term Year 5	
SJN Nutrition Big Cook / Little Cook after school club £600 2x 6wk sessions due to popular demand.	Year 3 & 4	As above. This has created a vital home school link, engaging and educating parents/children to a high level with <b>5.5%</b> more parent participation than 2012/13.
Dance / Gym after school club	Whole school	To provide children with an opportunity to participate in a popular sport at a low cost. Improves skills and social interaction. Reducing cost has seen a rise in the number of participants from 5% of the school to 12%.
Chesterfield Football Club Coach Lunch time club	Spring Term Whole school girls x 8wks	This raised the profile of girl's football and was a fantastic opportunity to introduce girls to the sport and enhance their skills. From <b>4.5%</b> of children joining football club in 2012/13 to <b>23%</b> this year.

Chesterfield Football Club Football Skills coaching. 14 sessions £350	Year 1 cohort of 40 children.	To establish and secure the fundamental movement skills, with a focus on balance and coordination. The participation rate was outstanding and the skills developed are transferable to other activities in Y2 and beyond. A valued stepping stone for the new curriculum.
Chesterfield Sports Partnership £2,000	Whole school	This has supported children, staff and parents alike. It has increased skill level and raised standards in subject knowledge. Team spirit, fair play and competitiveness has increased since regular attendance of inter schools competitions.
Balance Bike Training	EYFS & Y1/2	This has improved balance, coordination and core stability. Children have learnt a new skill and have experienced something different and exciting. Many children had never been on a bike before and could ride competently by the end of the programme!
Transport to competitions	Whole school £300 6 events	This will allow every child to participate in competitions.
Resources	Playground sports equipment. Whole school £400.	Children improved their skills ready for the competitions. We have used sport activities at playtime as a motivator to inspire young children to work together, build friendships and to be active and healthy.

**TOTAL = £8,480 (£700 carried over to 2014/15)**

- **All PE specialists will rotate year groups to ensure both the children and teachers learn and develop a variety of skills, strategies and subject knowledge.**
- **Sport is an amazing tool to promote children's holistic development. At Whitecotes children are motivated through sport because it enhancing their social skills and provides fresh opportunities and challenges, which in turn promotes academic success. This is why we have also allocated some of our Pupil Premium funding to sport related programmes.**

<u>Intervention</u>	<u>Pupils Involved</u>	<u>Impact/Evidence</u>
<u>'Be the Best you can Be!'</u> <u>programme £2,500</u>	Whole school	Children are becoming independent learners and critical thinkers. They are prepared for the complex and diverse world in the future. They developed a positive approach to learning and aspirations for life. They understand the importance of having a goal and thrive on learning new skills to help them achieve it.
<u>Tai Chi</u> Weekly 30 mins sessions for each year group provided by For 38 weeks at £40 per session (£1,520, per academic year)  <u>Tai Chi after school club</u> Increased from <b>3%</b> attendance in 2012/13 to <b>7%</b> in 2013/2014.	Key Stage 1	Improved core stability. This development of gross motor skills and balance links closely with children's fine motor development to improve writing skills. Furthermore, the specialist moves include moving both side of the body simultaneously which is in turn connects both sides of the brain. Such skills are crucial for mathematics and a sustained concentration span. Tai Chi focuses on calmness and composure. This is increasingly evident in classrooms.

**Be the best you can be!**
